

SHARING A PIONEER PROJECT WITH A COMMUNITY – THE BEEP-BEEP-BEEPING EGG

Minnesota Legacy West Telecom Pioneer president, KathyHanson, visited the community of Becker Minnesota and shared with a local senior citizen group one of the interesting projects Pioneers are involved with, a Beeping Egg Hunt for students with limited or no sight.

Kathy told of the relationship Pioneers have had for many years with the Minnesota State Academy for the Blind in Faribault. Students look forward to the annual outdoor picnic and hunt for the Beeping Eggs scattered around in a small field. There is always friendly competition among students to see who finds the most eggs.

Attendees had lots of questions about the project, the school and other Pioneer outreach projects in the community.
